- Approved minutes from 11/9/09
- Engaged in a conversation on next steps based upon the learnings from the training. Valueable training and it reminded us that we can have a central focal point even when we see different sides/have different perspectives.
- As a community, don't have a shared understanding of what the issues are. Hopeful the survey can provide a benchmark.
- Future question: what is our product from the last year?

12/7/09 canceled so the committee can attend the program on inclusion.
