

Samuel Merritt College
Department of Physical Therapy – DPT Program
Case Report Presentation Day
May 21, 2008

Track 1 - Neurological and Pediatric

- 9:40 *A. Streeton* Does Rhythmic Auditory Stimulation Improve the Gait of a Young Male One Year Post Traumatic Brain Injury with Associated Severe Ataxia.
- 10:00 A. Nishimoto Rehabilitation of a Patient after a Second Pontine Stroke
- 10:20 J. Liu Physical Therapy Intervention for a Patient Presenting with Pusher Syndrome and Left Neglect Post-Stroke
- 10:40 – 11:00 **Break**
- 11:00 R. Oliver An Interdisciplinary Approach to Treating a Patient Post-Stroke with a History of Post-Polio Syndrome: A Case Report
- 11:20 *E. De la Torre* Patient with von Hippel-Landau Disease Achieves Increased Functional Gains after use of Percutaneous Endoscopic Gastrostomy Tube
- 11:40 R. Roddy Physical Therapy Management of a Patient with Metastatic Breast Cancer and Resultant Paraplegia.
- 12:00 M. Wong The Use of the Star Excursion Balance Test in the Physical Therapy Management of a Patient with Hemiparesis
- 12:20 – 1:20 **Lunch**
- 1:20 L. Henderson A Reflective Analysis of the Ethical Reasoning Process Used by a Physical Therapist Student to Advocate for a Patient: A Case Report
- 1:40 A. Dilem The Prognosis of a Non-Ambulatory Elderly Patient with Chronic Stroke Receiving Physical Therapy for the First Time in 22 Years
- 2:00 V. Sifuentes Serial Casting to Improve Equinus Gait in a Child with Spastic Hemiplegic Cerebral Palsy
- 2:20 C. Smith Diagnostic Reasoning in a Patient with an Unclear Medical Diagnosis
- 2:40 H. Huynh Behavioral Therapy in a Patient Diagnosed With a Conversion After Multiple Neurological Insults: Is It Effective?
- 3:00 – 3:20 **Break**
- 3:20 L. Vernon Implications for Stroke Rehabilitation When a Co-morbidity of Williams Syndrome Exists: A Case Report
- 3:40 A. Kuamoo Choosing an Appropriate Outcome Measure in a Patient with Miller Fisher Variant of Guillain Barre Syndrome
- 4:00 J. Larsen The Use of Neurocom's Balance Master™ Training Protocols to Improve Functional Performance in a Patient with Multiple Sclerosis
- 4:20 J. Goss Physical Therapy Management of a Patient with Transverse Myelitis
- 4:45 **Reception**

Track 2 - Musculoskeletal, Circulatory, and Lymphatic

| | | |
|---------------|----------------|--|
| 9:40 | L. Flores | Treatment of Early Stage Shoulder Adhesive Capsulitis with a Passive Range of Motion Machine: a Case Report |
| 10:00 | C. Ranum | The Use of Rehabilitative Ultrasound Imaging to Facilitate Treatment in a Patient with Low Back Pain |
| 10:20 | J. Cahill | Physical Therapy Management of Physical and Psychosocial Factors in a Patient with Chronic Low Back Pain following Multiple Spinal Surgeries |
| 10:40 – 11:00 | | Break |
| 11:00 | D. Fridolfsson | The Potential Role of Psychosocial Factors in the Different Outcomes of Physical Therapy for Two Patients with Whiplash-Associated Disorder |
| 11:20 | R. Holgado | Managing Anxiety with Guided Imagery to Improve Functional Mobility in a Patient with COPD |
| 11:40 | B. Petrovic | Using mirror therapy to treat phantom-limb pain in a patient with a below-knee amputation in the acute care setting |
| 12:00 | G. Lam | Choosing the Appropriate Tests to Measure Fall Risk for Community-Dwelling Older Adults: A Case Report |
| 12:20 – 1:20 | | Lunch |
| 1:20 | J. Bendzinski | Lateral Epicondylitis: A Clinical Reasoning Approach to Management |
| 1:40 | A. Masoni | Identifying and Correcting Excessive Foot Pronation and Genu Valgum in a Patient With Recurrent Peroneal Nerve Palsy Due to Synovial Cysts of the Knee |
| 2:00 | V. Patel | The Physical Therapy Prognosis of a Person with Multiple Knee Pathologies and a History of Smoking |
| 2:20 | K. Chassy | Management of a Stage III Pressure Ulcer with Negative Pressure Therapy in a Patient Post Heart and Kidney Transplant |
| 2:40 | C. Krause | Physical Therapy Management of a Patient with an Artificial Lumbar Disc: A Case Report |
| 3:00 – 3:20 | | Break |
| 3:20 | M. Mar | Physical Therapy Management of a Patient Who Is Obese With Traumatic Lower Extremity Injury |
| 3:40 | B. Templeman | Fear-Avoidance Education, Graded Exposure, and Lumbar Stabilization for a Patient with Chronic Low Back Pain |
| 4:00 | J. Juanich | A Fear-Avoidance Based Intervention Combined with Motor Imagery and Proprioceptive Neuromuscular Facilitation in a Person with Chronic Pain |
| 4:20 | J. Garakian | Complex Acute Physical Therapy Management of a Patient with Abdominal Compartment Syndrome |
| 4:45 | | Reception |
