IMPORTANT HELPFUL HINTS

The following helpful hints will enable you to use your Prepaid Card more efficiently and effectively. Please visit the Frequently Asked Questions (FAQ) section of the website on the front of this carrier or the back of the card for additional information.

- For Retail Purchases: Choose the CREDIT option and SIGN the receipt.
- For Online Purchases: Use the billing address on the front of this carrier.
- For Purchases for more than the available balance on your Prepaid Card: First, using cash or some other form of payment, pay the difference between the total purchase price and the available balance of your card. Second, making sure that the merchant's terminal now reflects an amount equal to the available balance on your Prepaid Card, use your Prepaid Card for the remainder of the purchase.
- Using your Prepaid Card at GAS STATIONS: When purchasing gasoline, please take your card to the attendant. Tell the attendant to charge the amount you wish to purchase, have the attendant charge that amount on your card, and then pump your fuel.
- Using your Prepaid Card at RESTAURANTS: Please note that most restaurants and other businesses that accept gratuity have their point-of-sale terminals pre-programmed to add a 15%-20% gratuity to your bill total at the time of card authorization. For your card to be accepted, the total of your bill plus the automatic gratuity added must not exceed the available balance on your Prepaid Card. This issue may apply to any merchant with a tip line on the receipt.
- Using multiple cards for a single purchase: When making a purchase using both a credit card and your Prepaid Card, please be advised that some merchants are unable to process split transactions. Some point-of-sale terminals have a limited ability to process multiple cards for the same purchase.
