

How To Download the Panopto Recorder on SMU PC Computers

1. Place your laptop in your docking station on campus, and then **login to your computer**.

You must be on campus connected to your docking station in order to download SMU approved software. Wi-Fi will not work to download the Panopto Recorder.

2. Open the **Start**  menu.

3. Click **All Programs**.

4. Select **Microsoft System Center**.

5. Select **Configuration Manager**.

6. Select **Software Center**.

The Software Center will open. If you do not see the Panopto Recorder  software listed, you can locate it by clicking on the link to **“Find additional applications from the Application Catalog”** located in the upper right under the search bar of the Software Center.

7. Select the **Panopto Recorder** software on the **Available Software** tab.

8. Click **Install Selected**.

Application	Category	Manufacturer	Published	Status
