

## Notification Center

Windows 10 enables you to see notifications from apps which appear as “toasts” above the notification tray at the lower right of the screen.

Within the notification center, you’ll find:

- A persistent list of notifications, so that you can view and address them at times of your choosing.
- Links for performing quick actions, such as turning Wi-Fi on or off, clear notifications, screen snip.

## To open the Notification Center

Select the **notification center** icon in the notifications area at the far right of the Windows Taskbar.
