This a **PRELIMINARY** assessment **NOT** a legally binding contract. Prerequisite course work must have been completed at an accredited college/university, with a grade of "C" or better, when letter grades are assigned. Science prerequisites must have been offered by a science department or designated for health profession majors. Prerequisite coursework in progress or planned must be included on this worksheet. As a guideline, all coursework should be transferable to the University of California. If any changes are made to courses in progress or planned, please contact the Office of Admission. Changes may affect an offer of admission.
