CLOSING REMARKS

2024degrees

Doctor of Nursing Practice

The Doctor of Nursing Practice (DNP) program has four tracks: Post-Masters professional program; post-baccalaureate Family Nurse Practitioner (FNP) program; Psychiatric Mental Health Nurse Practitioner program; and Anesthesia program. All culminate with a Doctor of Nursing Practice, which is designed to prepare graduates to practice at the highest level of advanced nursing practice.

The DNP program prepares graduates to be culturally diverse leaders and change agents within their clinical specialty with a commitment to improve health care outcomes through practice, policy change, and leadership.

The DNP FNP program prepares patient-centered primary care providers to care for culturally diverse and underserved populations, emphasizing health promotion and disease prevention.

The DNP-PMHNP prepares nurses with advanced skills to provide comprehensive mental-health care that addresses the complex needs of people with psychiatric disorders—across their lifespan.

Anesthesia Doctorate of Nursing Practice program prepares graduates for entry into a full-scope, evidence-based anesthesia practice with advanced nursing knowledge, leadership, health policy, and translational research skills to improve healthcare outcomes across the lifespan in diverse healthcare settings and systems.

Master of Science in Nursing

The Case Management program (entry-level or post-professional) prepares nurses with advanced theory and practice in a systematic approach to the delivery of health care to diverse populations. Graduates of the program will assume nursing case management roles in a variety of healthcare settings. They will ensure coordination, continuity, and quality of care, while demonstrating a clinical nursing foundation in the application of case management principles.

The Family Nurse Practitioner program (entry-level or post-professional) prepares family-oriented primary care providers to care for culturally diverse and underserved populations, emphasizing health promotion and disease prevention. Graduates manage health problems and provide comprehensive care to individuals, families, and communities in a variety of settings. Students are eligible for national certification.

The Clinical Leadership and Education (CLE) program prepares Registered Nurses for leadership roles in diverse healthcare settings. Graduates are equipped with the skills to drive change in nursing education and practice, and to advocate for diversity, equity, and inclusion in the nursing profession. They are empowered to become influential leaders and educators, ready to make a significant impact on the future of healthcare.

20 24degrees

CONTINUED

Bachelor of Science in Nursing

The College of Nursing offers programs that award the Bachelor of Science in Nursing degree. One option is an accelerated baccalaureate program (ABSN) for candidates with degrees in other fields. Students admitted to the program demonstrate an array of professional experiences and academic achievements to succeed in the program. The program provides a mechanism for graduates with non-nursing degrees to change careers and become nurses efficiently and effectively. ABSN students can complete the program in twelve months.

The second option is through transfer from other

colleges. This program allows students to obtain the liberal learning and science courses required as the foundation for professional nursing education from the institution of their choice.

The third program is designed for registered nurses prepared at the associate degree level to obtain a BSN degree. The RN to BSN program enhances their current practice knowledge and prepares them for expanded clinical roles.

25

AWARDS and HONORS

Outstanding Doctor of Nursing Practice Student Award

This award is presented to the Doctor of Nursing Practice student whose participation in the program is most consistent with the leadership, service, and academic expectations of the practice doctorate.

Outstanding Doctor of Nursing Practice Project Award

The award is presented to an exemplary student from either the Doctor of Nursing Practice, Family Nurse Practitioner, or the Post-Master's Program. It honors a project that not only demonstrates wide dissemination, but also encapsulates the mission and vision of SMU. This award recognizes a project that has instigated exceptional changes in practice and has focused on reducing inequities in healthcare.

Outstanding Master of Science in Nursing Awards

These awards are given each year to master's nursing students whose performances exemplify the highest level of achievement, have contributed to the advancement of the profession, and have performed service as outstanding representatives of Samuel Merritt University based on professional involvement, leadership, academic innovation, ingenuity, and performance.

Nursing Faculty of Tomorrow

Fellow Program

The Nursing Faculty of Tomorrow (NFT) teaching fellows program was developed in Fall 2017 at Samuel Merritt University (SMU) to help current SMU students explore their interest in teaching. It is specifically designed to inspire students to consider teaching as part of their nursing career, or transition to a full-time teaching role in nursing. The program provides opportunities for students to develop their teaching skills in ways that will have a significant impact on them, their peers, and their understanding of the role of a nurse educator. Through guided experiences with skilled faculty, students in the NFT program gain the knowledge and skills needed to envision, design, conduct, and evaluate innovative, evidence-based classroom, laboratory, and clinical pedagogies. The fellows who have successfully completed the minimum requirements in the NFT program are acknowledged with an apricot and teal blue honors cord to represent nursing and education.

AWARDS AND HONORS, *continued*

Samuel Merritt University Interprofessional Education (IPE) Passport

Interprofessional Education (IPE) is anytime health professionals learn from, about, and with each other. IPE is a core part of healthcare, and Samuel Merritt University aims to make IPE a core part of the SMU student experience.

The IPE Passport allows SMU students to engage with Interprofessional Education—and more importantly, Interprofessional Practice & Education—at their own pace, depending on the student's individual level of interest and schedule. Participation in most IPE activities at SMU is elective.

The SMU IPE Passport is divided into three levels:

Level 1 (Preparatory) is comprised of activities that are self-paced, completed online, asynchronously (within the IPE Passport Canvas course) and provides learners with core foundational knowledge about IPE.

Level 2 (Foundational) is comprised of TeamSTEPPS (Team Strategies and Tools to Enhance Performance and Patient Safety) training. Most students take part in TeamSTEPPS training within one of their existing SMU courses within the first two terms of their academic program.

Level 3 (Applied) is a menu of synchronous, interprofessional learning opportunities. Students must complete at least two activities.

In order to complete the entire IPE Passport, students must complete all three levels prior to graduation.

The graduates wearing blue, white, and green cords are recognized as IPE participants.

Tutor Coordinator

Tutor Coordinator is a student leadership role within the Academic Support Department. These students provide targeted academic support for their programs through workshops, mock exams, and 1-1 support. They also serve as the leaders for the tutors in their respective programs by voicing concerns and communicating needs to the professional staff. Overall the Tutor Coordinators are exceptional students who chose to dedicate their time at SMU to helping others succeed.

TUTOR COORDINATOR

DR. SAMUEL MERRITT

A BRIEF BIOGRAPHY

SAMUEL MERRITT, MD was born in 1822 in Harpswell, Maine, and graduated from the Medical School of Maine at Bowdoin College. After practicing medicine in Plymouth, Massachusetts for three years, Dr. Merritt joined the great migration of 1849 to California. Here he made his fortune as a businessman and his reputation as one of the leading founders of the Bay Area.

When Dr. Merritt died forty years later in 1890, the *Oakland Tribune* called him the man most prominent in the establishment and building of the City of Oakland. He had touched every aspect of public life here, serving as the thirteenth Mayor of Oakland, and one of the original Regents of the University of California. Dr. Merritt played a significant role in the creation of Lake Merritt and the construction of the Oakland Public Library and City Hall. As the first president of the Mountain View Cemetery, he continued to influence the architectural landscape of the city. In his will, Dr. Merritt provided for the establishment of Samuel Merritt Hospital and the training school for nurses that has now evolved into Samuel Merritt University.

Dr. Merritt died before Samuel Merritt Hospital and its school were built. However, his fortune and forward thinking made the founding of the institution possible. Today the women and men who carry on his mission—as students, faculty, and staff—are looking ahead to the next one hundred years. The transformation of Samuel Merritt University in the twenty-first century continues the tradition started long ago by this extraordinary individual who had a mighty vision for the quality and well-being of the East Bay community.

ACADEMIC COSTUME

The history of the academic dress worn by those participating in the graduation processional reaches far back into the early days of the oldest universities. The academic costume consists of the gown, hood, cap, and tassel. The hoods worn by the participants are lined with the official color or colors of the college or university from which they received the degree. The edging of the hood is in widths of two inches, three inches, and five inches for the bachelor's, master's, and doctor's degrees, respectively. The color of the hood edging is indicative of the subject to which the individual's degree pertains. For all academic ceremonies the colors associated with the different subject areas are as follows:

DEGREE	COLOR	DEGREE	COLOR
Agriculture	Maize	Music	Pink
Arts/Letters	White	Nursing	Apricot
Commerce/Business	Drab	Occupational Therapy	Green
Oratory	Silver Gray	Dentistry	Lilac
Pharmacy	Olive Green	Philosophy	Dark Blue
Economics	Copper	Physical Therapy	Teal
Education	Light Blue	Physician Assistant	Green
Engineering	Orange	Podiatric Medicine	Nile Green
Fine Arts	Brown	Public Administration	Peacock Blue
Forestry	Russet	Public Health	Salmon Pink
Journalism	Crimson	Science	Golden Yellow
Law	Purple	Social Work	Citron
Library Science	Lemon	Theology	Scarlet
Medicine	Green	Veterinary Medicine	Gray
